The ASAM Fellows logo for this year features the Plumeria, a flower that holds special significance across Asia and the Pacific Islands. The Plumeria symbolizes new beginnings and new growth, an uplifting reminder of the possibilities this new year will bring despite the challenges we are all facing. Abundant in many parts of Asia, the resilient and graceful flower only burns at extremely high temperatures. The plumeria’s prominence and inherent strength inspires us to be resilient and confident in challenging times as we embrace the opportunities to learn and thrive.
